I. General Instructions :-

This paper carries three sections : Reading, Writing and grammar
Attempt all questions of a section before proceeding to the next.

Section-A (Reading)

(5×4=20 Marks)

1. Read the following passage carefully and answer the questions that follow :-

Ants are the most interesting of all insects because they are like human beings in many ways. They live in families, build their own houses, and have a king and a queen. Each ant has its own work to do and it does its work well. The very young ants, which have just come out of their cocoons, are generally the nurses. When they are older and their skins are harder, they are ready to leave the nest and do other kinds of work. Some of the ants hunt for food. Most other kinds of insects go about looking for food, but it is always for themselves alone. But the ants think of the rest. They bring in food for the queen and other workers, as well as for themselves.

Questions :-

- How are ants similar to human beings ?
- What jobs do the very young ants do ?
- When do these very young ants leave the nest ?
- Which word in the passage means "tiny/small creature" ?
